If you all think it's ok, I'm sure I'll agree. I don't think I'll have time to look at it before 5. Still on this call. Sorry I didn't get to it today.

Alexis, we are all ok with this. Do you have any concerns? I'll respond to David and say we don't have concerns in a half an hour unless you express concerns before then. Thanks.

Attached is a document that shows, in redline, the new language in the version Mita circulated last night, as compared to our previous draft. I don't see any problems with it – anyone else?

I believe David Fotouhi is going to reach out to you to make sure that you are okay with the language. Thanks
